Management Discussion and Outlook

BUSINESS REVIEW

During the six months ended 30 June 2017 (the “Review Period”), the Group continued to engage in natural resources and energy related business, information technology and related business, investment holding and properties investment. For the Review Period, the Group reported revenue of HK\$6,007,000, decreased by 95% from the previous period (30 June 2016: HK\$120,471,000), and gross profit of HK\$1,447,000, showing a decrease of 54% compared to the prior period (30 June 2016: HK\$3,177,000). The decreases in the Group’s revenue and gross profit were mainly attributable to the decrease in sales of energy related products and electronic components during the Review Period.

Natural resources and energy related business

Since December 2015, the Group has expanded its scope of natural resources business to energy related products by engaging in the sale of solar panels. During the Review Period, the Group recorded revenue of HK\$4,697,000 (30 June 2016: HK\$106,264,000) from the sale of solar panels and recorded a gross profit amounted to HK\$137,000 (30 June 2016: HK\$2,968,000) from these trades. There was a drop in the sale of solar panels during the Review Period as the Group is in the process of renegotiating certain terms of the trading contracts with its customers as a measure to enhance its credit management. The solar panels traded by the Group are for the use by solar power plants in the PRC for building their power generation facilities, and these solar panels are in good demand primarily as a result of the promotion of “Clean Energy” concept in the PRC.

Subsequent to the end of the Review Period, on 4 July 2017, Enviro Energy Minerals Limited (“EE Minerals”), an indirect wholly owned subsidiary of the Company, entered into an agreement with China Area International Limited (“China Area”), pursuant to which EE Minerals has conditionally agreed to acquire and China Area has conditionally agreed to sell the 100% equity interest in China Area International Development Limited (“CAIDL”) at a consideration of RMB54,000,000 (equivalent to approximately HK\$63,180,000), which will be settled by cash. As advised by China Area, Liaoning Xingcheng Kaiyuan Stone Material Company Limited (literal translation of the Chinese name) (“Liaoning Xingcheng”), an indirect wholly owned subsidiary of CAIDL in the PRC, held an exploration licence (the “Exploration Licence”) for the mining right of a granite mine (the “Mine”) located at Guojia Village, Gaojia Mountain Range Township, Xingcheng City, Liaoning Province, the PRC of 0.1479 square kilometres. As at the date of this report, the acquisition is not yet completed. Further details of the transaction are stated in the Company’s announcement dated 4 July 2017.

As a whole, since the solar panel trading operation had contributed a profitable result, the business recorded an overall profit of HK\$135,000 (30 June 2016: HK\$2,436,000).

Information technology and related business

During the prior period, the Group recorded revenue of HK\$14,168,000 from the information technology and related business, representing trading income from sale of components of various electronic devices. The Group did not record any revenue for the Review Period as the market of the electronic components traded by the Group has become very competitive with limited profitable business opportunities. The Group is now sourcing various electronic components with better profit margin for developing new businesses.

Properties investment

The Group’s investment properties situated in Yingkou City, Liaoning Province, the PRC, comprising 40 commercial units totalling approximately 14,182 square meters, certain of the commercial units have been leased out for rental income subsequent to the Review Period.

Management Discussion and Outlook

The Group's investment properties comprise the fourth floor and the fifth floor of a building situated at Dalian City, Liaoning Province, the PRC have an approximate total floor area of 2,843 square meters. The properties are now vacant and the Group intends to lease out these properties for rental income.

The Group also owned a piece of land of gross area of approximately 4,320 square meters together with a twelve-floor property erected thereon with gross construction area of approximately 17,800 square meters. The property is situated in Yingkou City, Liaoning Province, the PRC and is currently being leased out for rental income.

The Group owned two parcels of land located at Bai Sha Wan, Bayuquan District of Yingkou City, Liaoning Province, the PRC with gross usage area of approximately 59,245 square meters. The Group intends to build commercial properties on these parcels of land and lease out the properties for rental income.

On 3 January 2017, an indirect wholly owned subsidiary of the Company acquired Yingkou Haida Property Service Company Limited (literal translation of the Chinese name) ("Yingkou Haida"), a company established in the PRC, which owned a piece of land with gross usage area of approximately 5,000 square metres and two blocks of buildings with total floor area of approximately 5,022 square meters. The Group intends to refurbish these properties and put them on lease for rental income.

During the Review Period, the operation's rental income amounted to approximately HK\$891,000 (30 June 2016: nil). As a whole, the operation booked a loss of HK\$1,616,000 for the Review Period after accounting for operating expenses (30 June 2016: HK\$615,000).

Investment holding

In January 2016, the Group subscribed for Class A Shares of China Huacai Finance Equity Investment Fund SP (the "Fund") for a consideration of HK\$100,000,000. The Fund is a sub-fund, which is a segregated portfolio, of Global High Growth Industries Fund Series SPC and managed by Sheng Yuan Asset Management Limited as investment manager (the "Investment Manager") of the Fund. The principal investment objective of the Fund is to seek to achieve capital appreciation through investing in a portfolio consisting primarily of listed securities of companies established or operating in Hong Kong, Mainland China and Taiwan, as well as investing in various types of private funds, private equities and private debt products. The Investment Manager utilises a top-down and bottom-up investment process driven by intensive fundamental research to determine the optimal asset allocation for the Fund. The Board considers that the subscription is in line with the Group's objective to grow its investment return by adopting a proactive but prudent approach in its investments.

The Group held approximately 1,282 shares in the Fund, representing approximately 23.32% of its entire issued shares as at 30 June 2017. The carrying amount of the investment in the Fund represented approximately 13.4% of the Group's total assets as at 30 June 2017. The management is of the view that the investment in the Fund would generate stable investment income for the Group. During the Review Period, there is no investment income from the Fund (30 June 2016: nil).

On 7 April 2017, the Group subscribed for a bond issued by Huajun Holdings Limited (stock code: 377) ("Huajun") at a consideration of HK\$30,000,000. The principal activities of Huajun include Printing, Trading and Logistics, Property Development and Investments, Solar Photovoltaic and Financial Services. The carrying amount of this held-to-maturity investment represented approximately 4.0% of the Group's total assets as at 30 June 2017. This held-to-maturity investment is unsecured, interest bearing and repayable within one year. The Group intends to hold this investment for interest income and will redeem the bond upon maturity according to the terms of the subscription agreement.

During the Review Period, the business recorded a profitable results of HK\$300,000 (30 June 2016: nil).

Management Discussion and Outlook

BUSINESS PROSPECTS

It is the intention of the management to step up its effort to improve the financial performance of the existing businesses of the Group and to explore business opportunities in the natural resources and energy, information technology, properties investment and investment holding segments or other new segments with good prospects that will bring substantial value to shareholders of the Company.

FINANCIAL REVIEW

Overall Results

For the Review Period, the Group recorded a loss attributable to owners of the Company of HK\$17,123,000 (30 June 2016: HK\$8,171,000) and basic loss per share of HK0.23 cent (30 June 2016: HK0.12 cent). The increase in the Group's loss attributable to owners of the Company was mainly due to the decrease in revenue and the increase in administrative and operating expenses to HK\$11,527,000 (30 June 2016: HK\$9,033,000), being mainly related to increase in staff costs (including directors' emoluments).

Other Comprehensive Income

During the Review Period, the Group recorded an other comprehensive income of HK\$3,528,000 (30 June 2016: HK\$2,021,000) which represented exchange gains arising from translation of the properties investment operation in the PRC. During the Review Period, the Renminbi appreciated by approximately 1.7% against the Hong Kong dollar.

Liquidity, Financial Resources and Capital Structure

At 30 June 2017, the Group had current assets of HK\$223,365,000 (31 December 2016: HK\$157,275,000) comprising bank balances and cash of HK\$6,051,000 (31 December 2016: HK\$20,609,000). The Group's current ratio, calculated based on current assets of HK\$223,365,000 (31 December 2016: HK\$157,275,000) over current liabilities of HK\$327,883,000 (31 December 2016: HK\$209,798,000), was about 0.68 at the period end (31 December 2016: 0.75). At the period end, the Group's current liabilities increased by 56% to HK\$327,883,000 over the last year end (31 December 2016: HK\$209,798,000) and the increase was primarily due to a new bank borrowing of RMB79,000,000 (equivalent to approximately HK\$89,744,000) raised during the Review Period. At 30 June 2017, the bank borrowings were secured, denominated in Renminbi, bore interest at fixed rates and were all due within one year.

On 16 March 2017, the Group obtained a loan facility of HK\$100,000,000 from a licensed money lender in Hong Kong. The facility is available for drawdown during the period from 16 March 2017 to 30 September 2018. Up to the date of this report, no drawdown was made.

At the period end, the equity attributable to owners of the Company amounted to HK\$420,547,000 (31 December 2016: HK\$434,142,000). The decrease in the equity attributable to owners of the Company was mainly a result of the loss incurred by the Group during the Review Period.

As at 30 June 2017, the debt to equity ratio and net debt to equity ratio of the Group, which calculated by dividing total interest-bearing debt by total equity and dividing total interest-bearing debt less bank balances and cash by total equity, were 66% (31 December 2016: 42%) and 64% (31 December 2016: 37%) respectively.

With the amount of liquid assets on hand and unutilised loan facility, the management is of the view that the Group has sufficient financial resources to meet its ongoing operational requirements.

Management Discussion and Outlook

Charge on Group Assets

As at 30 June 2017, investment properties of the Group with carrying amount of HK\$323,548,000 were pledged to secure bank borrowings granted to the Group (31 December 2016: HK\$217,620,000).

Foreign Exchange Exposure

During the Review Period, the Group mainly earned revenue and incurred costs in Hong Kong dollar and Renminbi and no hedging measures had been undertaken. The management will continue to monitor closely the Group's foreign exchange risks by entering into forward contracts and utilising applicable derivatives to hedge out foreign exchange risks when considers appropriate.

Capital Commitment

As at 30 June 2017, the Group had no material capital commitment (31 December 2016: nil).

Contingent Liability

As at 30 June 2017, the Group had no material contingent liability (31 December 2016: nil).

EMPLOYEES INFORMATION

As at 30 June 2017, the Group had 21 full-time employees (30 June 2016: 18) working in Hong Kong, China and Indonesia. The Group remunerates its employees based on their performance, experience and the prevailing industry practice. Other benefits, such as medical and retirement benefits and training programs, are also provided.

Notes to the Condensed Consolidated Interim Financial Information

2. BASIS OF PREPARATION *(Continued)*

In view of these circumstances, the Directors have given careful consideration to the future liquidity of the Company and its available sources of financing to assess whether the Group will have sufficient funds to fulfill its financial obligations to continue as a going concern. The Group has taken a number of measures to improve the Group's financial position and alleviate its liquidity pressure, which include, but not limited to, the following:

1. During the Review Period, the Group has successfully renewed short-term bank borrowings of RMB92,000,000 (equivalent to approximately HK\$104,512,000) and RMB70,000,000 (equivalent to approximately HK\$79,520,000) by extending the maturity date to 16 January 2018 and 22 March 2018 respectively. In addition, the Group has confirmed with the bank that it will unconditionally extend the maturity dates for another twelve months upon the expiry of the bank borrowings.
2. On 16 March 2017, the Group obtained a loan facility of HK\$100,000,000 from a licensed money lender in Hong Kong. The facility is available for drawdown during the period from 16 March 2017 to 30 September 2018. Such loan is unsecured, bears interest at 12% per annum and once drawn down, the principal is repayable on the date falling at the end of the eighteenth month from the first drawdown date and the interest is repayable on a monthly basis.
3. In respect of the Group's business in trading solar panels, the Directors are enhancing its credit management, including but not limited to, shortening the credit period offered to its customers and demanding its customers to pay deposits in advance so as to improve the Group's working capital. With respect to the properties investment segment, the Group is actively marketing its investment properties for rental in order to increase the cash inflows and at the same time also considering opportunities to dispose of its investment properties for capital gains as they arise.
4. The Group shall implement other cost-saving measures with the objective of keeping the administrative and daily operational expenditures to a minimum.

The Directors have reviewed the Group's cash flow projections prepared by the management of the Company which cover a period of not less than twelve months from 30 June 2017. Based on the cashflow projections and taking into account the anticipated cash flows generated from the Group's operations, possible changes in its operating performance and the loan facility of HK\$100,000,000 secured, the Directors are of the opinion that the Group will have sufficient financial resources to satisfy its future working capital requirements and to meet its financial obligations as and when they fall due within the next twelve months from 30 June 2017. Accordingly, the Directors consider that it is appropriate to prepare the Group's condensed consolidated interim financial information on a going concern basis.

Notes to the Condensed Consolidated Interim Financial Information

3. PRINCIPAL ACCOUNTING POLICIES

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2016, as described in those annual financial statements.

Amendments to Hong Kong Financial Reporting Standards (“HKFRS”) effective for the financial year ending 31 December 2017 do not have a material impact on the Group.

Taxes on income in the interim periods are accrued using the tax rate that would be applicable to expected total annual earnings.

The Group has not adopted any new HKFRSs that are not yet effective for the current accounting period.

4. ESTIMATES

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty are the same as those that applied to the consolidated financial statements for the year ended 31 December 2016.

5. FINANCIAL RISK MANAGEMENT

5.1 Financial risk factors

The Group’s activities expose it to a variety of financial risks: currency risk, interest rate risk, other price risk, credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 December 2016. There have been no significant changes in the risk management policies since the year end.

5.2 Liquidity risk

The Group’s policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

Notes to the Condensed Consolidated Interim Financial Information

5. FINANCIAL RISK MANAGEMENT (Continued)

5.3 Fair value estimation

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's financial assets that are measured at fair value at 30 June 2017 and 31 December 2016:

Asset	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
As at 30 June 2017 (Unaudited)				
Available-for-sale investments	200	-	100,000	100,200
As at 31 December 2016 (Audited)				
Available-for-sale investments	200	-	100,000	100,200

There were no transfers of financial assets between Level 1, Level 2 and Level 3 fair value hierarchy classification and no changes in Level 3 instruments for the six months ended 30 June 2017 and 2016.

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1. Instruments included in level 1 comprise a listed equity securities classified as available-for-sale investment denominated in Canadian dollar.

Notes to the Condensed Consolidated Interim Financial Information

5. FINANCIAL RISK MANAGEMENT *(Continued)*

5.3 Fair value estimation *(Continued)*

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value a financial instrument are observable, the financial instrument is included in level 2.

If one or more of the significant inputs is not based on observable market data, the financial instrument is included in level 3. Instrument included in Level 3 comprise an unlisted equity securities classified as available-for-sale investment denominated in US\$.

5.4 Fair value of financial assets and liabilities measured at amortised cost

The fair values of the club memberships, trade and other receivables, held-to-maturity investment bank balances and cash, and trade and other payables and bank borrowing as at 30 June 2017 and 31 December 2016 approximate to their carrying amounts.

6. SEGMENT INFORMATION

In a manner consistent with the way in which information is reported internally to the Co-chief Executive Officers of the Company (collectively the “CEO”), the Group has presented the following reportable segments:

- (i) Natural resources and energy related business
- (ii) Information technology and related business
- (iii) Properties investment
- (iv) Investment holding

For the purposes of assessing segment performance and allocating resources between segments, the CEO monitors the results, assets and liabilities attributable to each reportable segment on the following basis:

- (a) Segment assets include all tangible and intangible assets and current assets with the exception of club memberships and other unallocated corporate assets.
- (b) Segment liabilities include all liabilities with the exception of bank borrowings and other unallocated corporate liabilities.
- (c) Segment results are allocated to reportable segments with reference to sales generated and expenses incurred by those segments, together with other gains, net, selling and distribution expenses and administrative and operating expenses.

The amounts provided to the CEO with respect to the information mentioned above are measured in a manner consistent with that of the condensed consolidated interim financial information.

20. BANK BORROWINGS

As at 30 June 2017, the analysis of the carrying amount of bank borrowings is as follows:

	As at 30 June 2017 HK\$'000 (Unaudited)	As at 31 December 2016 HK\$'000 (Audited)
Current		
Bank borrowings – secured	273,776	180,884

On 28 January 2016, Huan Neng International Trading (Yingkou) Company Limited (literal translation of the Chinese name) (“HNYK”) an indirect wholly owned subsidiary of the Company, as borrower, entered into a bank borrowing agreement for RMB92,000,000 (equivalent to approximately HK\$104,512,000) with a commercial bank in the PRC. The bank borrowing was secured by an investment property of the Group with carrying amount of HK\$93,493,000 as at 30 June 2017. The loan was renewed for one year in January 2017. The Group has confirmed with the bank that it will unconditionally extend the maturity date for another twelve months upon the expiry of such bank borrowing.

On 20 July 2016, the Group acquired 100% equity interest of Liaoning Taoqibao Mall Management Company Ltd. (literal translation of the Chinese name) which had a bank borrowing of RMB70,000,000 (equivalent to approximately HK\$79,520,000) with a commercial bank in the PRC. The bank borrowing was secured by an investment property of the Group with carrying amount of HK\$129,621,000 as at 30 June 2017. The loan was renewed for one year in March 2017. The Group has confirmed with the bank that it will unconditionally extend the maturity date for another twelve months upon the expiry of such bank borrowing.

On 21 June 2017, Yingkou Hailanggu Travel Company Limited (literal translation of the Chinese name) an indirect wholly owned subsidiary of the Company, as borrower, entered into a bank borrowing agreement for RMB79,000,000 (equivalent to approximately HK\$89,744,000) with a commercial bank in the PRC. The bank borrowing was secured by investment properties of the Group with total carrying amount of approximately HK\$100,434,000 as at 30 June 2017.

21. ACQUISITION OF A SUBSIDIARY

On 12 January 2017, the Group acquired 100% equity interest of Yingkou Haida which own certain properties situated in Yingkou City, Liaoning Province, the PRC at a consideration of RMB24,650,000 (equivalent to approximately HK\$27,773,000). No material acquisition related costs were incurred in the acquisition. Before the acquisition by the Group, Yingkou Haida had no business activities except for holding of investment properties. Accordingly, the Directors are of the opinion that the acquisition of Yingkou Haida did not constitute a business combination but an acquisition of assets.

22. RELATED PART TRANSACTION
